

# AskSprut + Your Organization

**Expanding Regulatory Intelligence.  
Enhancing Client Value.**

Clients rely on TIC partners not only for testing and certification but for guidance on evolving regulatory landscapes. However:

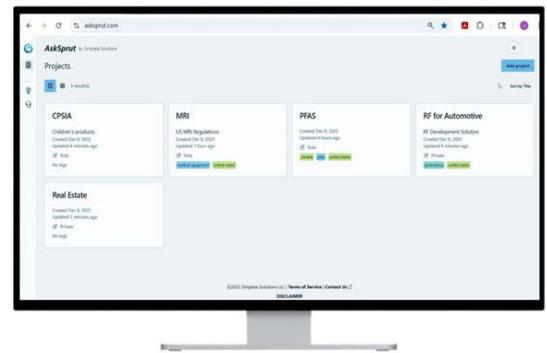

- Regulatory monitoring is time-intensive
- Manual tracking is inconsistent
- Advisory services are difficult to scale
- Regulatory change is accelerating globally

Forward-thinking TIC organizations are expanding beyond testing execution into regulatory intelligence enablement.

## The Partnership Model

AskSprut provides a modern regulatory intelligence platform that can be delivered through partnership models designed specifically for TIC organizations. You can:

- Offer AskSprut to Your Clients - Enhance your portfolio with subscription-based regulatory monitoring.
- Utilize AskSprut Internally - Empower your own technical teams with centralized regulatory intelligence.
- Create New Advisory Revenue Streams - Bundle regulatory insight with testing, certification, and compliance programs.
- Strengthen Client Retention - Increase touchpoints beyond transactional testing projects.

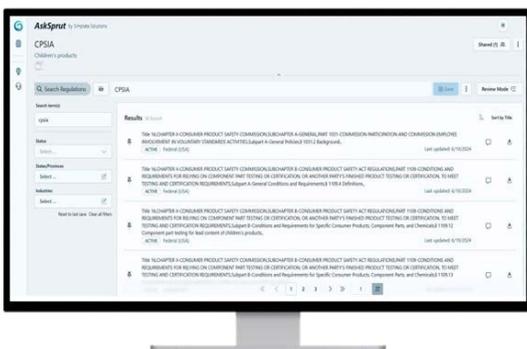

## Business Impact

TIC organizations partnering with AskSprut can:

- Increase average revenue per client
- Create higher-margin advisory services
- Strengthen competitive positioning
- Support global account expansion
- Improve client lifecycle value

Regulatory intelligence becomes a growth lever not just a support function.
